Enrollment Report Fall 2021

The Enrollment Report lists student registration data, sorted by category of admittance for the Fall semester. This report notes the FTE, Enrollment Location and Enrollment Headcount data for Fall 2019, Fall 2020 and Fall 2021 to compare how the Covid-19 pandemic has changed enrollment.

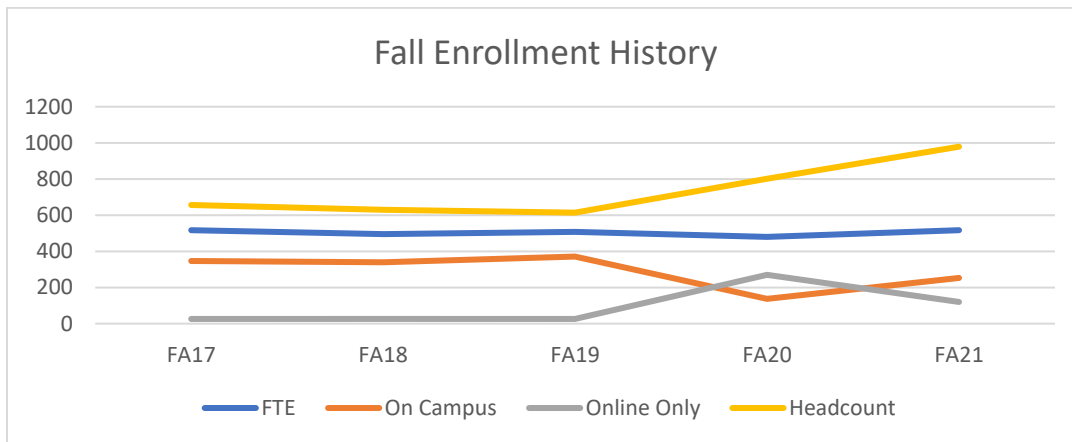

The **FTE (Full-Time Enrollment)** has increased by 8% from 480 (Fall 2020) to 517 (Fall 2021). Due to the Covid-19 pandemic, enrollment data has fluctuated from a regular Fall 2019 semester where most students were on-campus (389) compared to the Fall 2020 semester, where most students were online (181). For Fall 2021, it's noted that students are returning to campus (217). Also, graduate FTE has increased by 47% with the implementation of the new MFA in Studio Arts program and students returning to the MFA Creative Writing program. Notably, the Dual-Credit program FTE also increased by 35% compared to Fall 2020. (*FTE is calculated by number of credits divided by full-time status.)

The **Enrollment Location** has changed considerably comparing Fall 2019 (18-online) to Fall 2020 (189 online) to Fall 2021 (119 online). This Fall 2021 semester, most students are back on-campus and are also taking online courses totaling 198 students back on-campus.

The **Enrollment Headcount** has increased by 22% for a total of 979 (Fall 2021) compared to 801 (Fall 2020) and is the largest headcount in IAIA history. Both the Dual Credit Program and the Continuing Education Program helped to increase the headcount. Conversely, this semester, we note a 35% decline with New Freshmen and a 28% decline with Transfer students compared to the Fall 2020 semester and attribute the decline as being directly related the Covid-19 pandemic. According to Native News Online, *"Undergraduate enrollment at public colleges, declined for all student groupings. However, Native American student enrollment decreased the most with a loss of 12.5 percent according to the National Student Clearinghouse Research Center."* (April 2021).
