### **Open Forum:**

Tina Sparks: I am starting a quilting initiative, connected to the issues confronted with Red Shawl Solid arity Project, Missing and Murdered Indigenous Women, violence against women, resiliency, prevention, healing. I would like to see quilts from all across North America be contributed from various tribes, communities, families, etc. I have been talking with Amber Dawn on getting the initiate spread into Canada, and will be meeting with a professor here on IAIA campus about getting this initiative

spread to a Mexican University. Ultimately, my vision is to have the quilts displayed on the mall in Washington D.C (ASG PR to Tina Sparks) How can ASG help you? As soon as you have how ASG can help you, and as long as it helps the broader IAIA community, we will help you.

Pamela Romero-Henderson: I want to start a traditional foods conversion class.

Dal'suhu Not-Afraid: The KIVA Club wants more involvement from clubs on Feast Day, so if any clubs want to get involved and set up a booth just get into contact with Charlene Carr.

### **Old Business:**

Alex (Last Name): Wanted to touch base with ASG about the IAIA Daycare. I want to have a tribal/cultural influenced curriculum with the daycare that is coming onto the IAIA campus. Curriculum is created by Presbyterian Medical Services, who is providing the Daycare. (ASG PR to Alex) ASG could help by creating a public information group one afternoon, with food, and drinks, to get this message spread to the wider IAIA community (Carmen Henan to Alex) Our suggestion is that we use students/clubs from our school that could volunteer to provide activities through reading, dance classes, movement, and utilize our talents here at the school and through that have a cultural influence.

- Ask ASG for help with spreading the message for child daycare on campus
- Buuild a playground
- Playground is going to be fenced off for certain hours
- Setup a proposal with facilities
- Another survey that could be put out to the IAIA community to add cultural involvement with the daycare.
- Creating a public information group that ASG could organize that would have food and organize people with the survey that would be given out during that time.
- Playground – met with Carmen
- Daycare is already approved
- PMS presbyterian medical servicfe – in charge of daycare curriculum
- Curruculum requested from PMS
- One suggestion is that our students could provide the cultural workshops for the Daycare
- PMS – federally funded – non profit - “multicultural”
- Wants something embedded in curriculum that ensures a Native influencfe
- ASG needs to have more information – copy of curriculum – copy of memorandum
- Need to see in writing
- Meeting at lunch this Thursday – with pizza – we don’t want to throw a wrench in it – can we control what we want as indigenous people
- Aesthetics – stories
- Resend the survey -
